The Stellar difference

Custom built for your home at the highest quality standards

Protect your home, reduce dust and improve the airflow by installing a Stellar Screen.

Stellar Screens won't compromise on quality. We have ensured every part of our screens use only the highest grade materials. Our meshing, unlike our competitors, is marine grade 316 stainless steel. Perfect for coastal properties.

Product Range

At Stellar Screens, we design for your home.

At Stellar Screens we custom build screen doors and windows in a range of natural or powder coated colours. We install high quality hook locks as a standard on all our screens or slam locks on our sliding door or window configurations.

The Stellar Screen Range:

Hinged Doors
Sliding Doors

Fixed Windows
Hinged Windows

Sliding Windows
French Windows

Vent Enclosures
Patio Enclosure

AVAILABLE IN:

WHITE

BRONZE

CHARCOAL

NATURAL MATT

CUSTOM COLOUR

ON REQUEST

STELLARSCREENS

SCREENS FOR DOORS & WINDOWS

Stellar Screens are manufactured using an aluminium frame with an inter-woven marine grade 316 stainless steel mesh. Our screens are custom designed to match any door and window configuration. Stellar Screens are a security barrier that protects your home from pests as well as human intruders.

The mesh is see-through, providing unobstructed views of the outside, while reducing solar heat and dust in your home.

FEATURES AND BENEFITS

- Custom-designed, manufactured and installed by trained Stellar Screen technicians.
- Designed and fitted with the highest grade materials with security in mind.
- Our sliding screens are fitted with both anti-lift and our unique inter-locker panel system.
- Each screen is created to suit the configuration for easy access to the handles and locks.
- Our screens use inter-woven marine grade 316 stainless steel. Strong and resistant to corrosion. A must for coastal properties.
- Stellar Screens in a sliding configuration are fitted with our soft glide technology.
- On request, the sliding screens are fitted with high quality slam locks for added security.
- Increase the airflow in your home while reducing dust and pollution.
- When Stellar Screens are applied over a window, the cooling efficiency increases with a reduction of solar heat up to 50%. Saving you money on cooling.
- Keeps out pests like mosquitoes, flies, baboons, monkeys and snakes.
- Protect your home without detracting from the views.
